FOSCARINI

One, two, three lanterns that are lightweight yet brimming with seductive texture. Three different yet concurrently complementary shapes, balancing between the east and the west. A family of lamps that sheds its relaxing light in the most diverse settings, conveying the magic of rice paper or mulberry tree bark, the raw materials of traditional Japanese lanterns, in the precious physical appeal of blown and frosted glass.

The horizontal lines which cut across the surface of the lamps give rise to a soft

and charming décor and at the same time contribute to filtering the intensity of the light source, diffusing a full, warm and soft light into the room.

The suspension lamp Rituals' blown glass body – with its pleasantly plaster-like appearance – are perfect for use alone or in harmonious compositions of between 3 and up to 9 lamps, thanks to the use of a multiple canopy.

Description

Suspension lamp with diffused light. A collection of three diffuser shapes in hand-blown glass made using a glass-blowing procedure without turning the glass in the mould (referred to as "stationary"); the striped effect is achieved using a mould with negative decorations which are repeated across the surface of the glass, which is subsequently ground manually "by belt" and which then undergoes immersion in acid in order to emphasise the plaster-like effect. Stainless steel suspension cable and transparent electrical cable, canopy with galvanised metal bracket and matt white batch-dyed ABS cover. Available in two versions with G9 or E27 lampholder.

Canopy decentralisation kit – multiple canopy available (up to 9 suspension lamps).

Rituals, suspension multiple composition

FOSCARINI

Description

A technical solution that couples function with design harmony: The multiple ceiling flange of Foscarini makes it possible to create compositions up to 6 or 9 suspension lamps to create cascades of light of high emotional impact, particularly suitable to enrich a stair case.

The standard multiple canopy is designed to suit a large number of suspensions from both Foscarini and Diesel with Foscarini collections.
