black/gold | black/copper | black

IP44 3.0

LED 32W | 220-240VAC | 50-60Hz
AC PCB 3-step low flicker
phase-cut dim | steel wet painted opal
PMMA cover
white | white/gold | copper
black/gold | black/copper | black

More drama, please!

When the hero in the movie pulls up his collar, that's when we know: Things are about to get dramatic. And that's exactly how it is with TOWNA, whose cupped frame works like a dimmer, gently and subtly directing the light to create a warm and inviting ambience – even in smaller city apartments. TOWNA can be used both as a high-impact ceiling luminaire and as a decorative wall luminaire. A particularly practical feature: This round luminaire, inspired by nature, is available in three different sizes and six different colour options. That means it can be individually combined to suit any project.
