

Havana Outdoor, floor design Jozeph Forakis 2005

FOSCARINI

The young, light-weight appearance recalling the shape of a cigar, which ironically gives it its name, the soft light that it emits and the ease with which it blends in with the most varied contexts, have made it the great success that it is today, so much so that it is also part of the permanent collection on exhibit at the New York MoMA. The outdoor version of Havana consists of a single polyethylene body with signs that recall its division into four segments, a division which distinguishes the design of the indoor version of Havana.

Available in white or yellow, the outdoor Havana is available as a suspension or floor lamp in two different heights.

Havana Outdoor, floor technical info

FOSCARINI

Description

Floor lamp with diffused light. Diffuser consisting of a single rotational moulded polyethylene part with direct coupling for assembly onto the support. Rod, base and diffuser support made of metal subject to cataphoresis treatment to add considerable resistance to corrosion and then polyester powder coated. Two different height versions are available - high and low - and three for floor fastening: repositionable base, picket or cylinder for burial. Electrical cable covered in neoprene for outdoor use without switch on the cable, equipped with an IP 65 terminal board and for the countries envisaged with a second Schucko plug CEE 7/7 IP44.

Materials: polyethylene and lacquered metal

Colours: white, yellow

Model

Havana Outdoor

– Underground base

Weight

netto kg: 4,50
lordo kg: 6,60

Packing

vol.m³: 0,109
n.colli: 3

– Stake mounted

Weight

netto kg: 5,20
lordo kg: 7,30

Packing

vol.m³: 0,114
n.colli: 3

– Base

Weight

netto kg: 10,10
lordo kg: 12,40

Packing

vol.m³: 0,108
n.colli: 3

Bulbs

– halogen energy saver 1x46W E27

– compact fluorescent 1x12W E27
